

Idaho State Board of Education

GOVERNING POLICIES AND PROCEDURES

SECTION: III. POSTSECONDARY AFFAIRS

SUBSECTION: Y. Advanced Opportunities

August 2010

1. Coverage

Boise State University, Idaho State University, the University of Idaho, Lewis-Clark State College, Eastern Idaho Technical College, North Idaho College, the College of Southern Idaho, and the College of Western Idaho are covered by these policies. Post-secondary programs intended for transfer come under the purview of the Board.

2. Purpose

The State Board of Education has made a commitment to improve the educational opportunities to Idaho citizens by creating a seamless system. To this end, the Board has instructed its postsecondary institutions to provide educational programs and training to their respective service regions, support and enhance regional and statewide economic development, and to collaborate with the public elementary and secondary schools. In addition to the Board's desire to prepare secondary graduates for postsecondary programs, the Board is also addressing advanced opportunities programs for qualified secondary students. These programs have the potential for reducing the overall costs of secondary and postsecondary programs to the students and institutions.

The primary intent of the Board is to develop a policy for advanced opportunities programs for secondary students, which would:

- a. Enhance their postsecondary goals;
- b. Reduce duplication and provide for an easy transition between secondary and postsecondary education; and
- c. Reduce the overall cost of educational services and training.

3. Definitions

There are various advanced opportunities programs students may access to receive post-secondary credit for education completed while enrolled in the secondary system. Examples include Advanced Placement® (AP), dual credit courses that are taken either in the high school or on the college campus, Tech Prep, and International Baccalaureate programs. For the purpose of this policy the State Board of Education recognizes four different types of advanced opportunities programs depending upon the delivery site and faculty. They are: Advanced Placement®, dual credit, Tech Prep, and the International Baccalaureate program.

a. Advanced Placement® (AP)

The Advanced Placement® Program is administered by the College Board. AP students may take one or more college level courses in a variety of subjects. AP courses are not tied to a specific college curriculum, but rather follow national College Board curricula. While taking the AP exam is optional, students may earn college credit by scoring well on the national exams. It is up to the discretion of

Idaho State Board of Education

the individual colleges to accept the scores from the AP exams to award college credit or advanced standing.

b. Dual Credit

Dual credit allows high school students to simultaneously earn credit toward a high school diploma and a postsecondary degree or certificate. Postsecondary institutions work closely with high schools to deliver college courses that are identical to those offered on the college campus. Credits earned in a dual credit class become part of the student's permanent college record. Students may enroll in dual credit programs taught at the high school or on the college campus.

c. Tech Prep

Professional-technical education programs are delivered through comprehensive high schools, professional-technical schools, and technical colleges. Tech Prep allows secondary professional-technical students the opportunity to simultaneously earn secondary and postsecondary technical credits. A Tech Prep course must have an approved articulation agreement between the high school and a technical college. Tech Prep is an advanced learning opportunity that provides a head start on a technical certificate or an associate of applied science degree.

d. International Baccalaureate (IB)

Administered by the International Baccalaureate Organization, the IB program provides a comprehensive liberal arts course of study for students in their junior and senior years of high school. IB students take end-of-course exams that may qualify for college-credit. Successful completion of the full course of study leads to an IB diploma.

4. Idaho Programs Standards for Advanced Opportunities Programs

All advanced opportunities programs in the state of Idaho shall be developed and managed in accordance with these standards, which were designed to help school districts, colleges and universities plan, implement, and evaluate high quality advanced opportunities programs offered to high school students before they graduate.

a. Dual Credit Standards for Students Enrolled in Courses Taught at the High School

Curriculum

Curriculum 1 (C1)	Courses administered through a dual credit program are catalogued courses and approved through the regular course approval process of the postsecondary institution. These courses have the same departmental designation, number, title, and credits; additionally these courses adhere to the same course description and course content as the postsecondary course
-------------------------	--

Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES

SECTION: III. POSTSECONDARY AFFAIRS

SUBSECTION: Y. Advanced Opportunities

August 2010

Curriculum 2 (C2)	Postsecondary courses administered through a dual credit program are recorded on students' official academic record of the postsecondary institution.
Curriculum 3 (C3)	Postsecondary courses administered through a dual credit program reflect the pedagogical, theoretical and philosophical orientation of the sponsoring faculty and/or academic department at the postsecondary institution

Faculty

Faculty 1 (F1)	Instructors teaching college or university courses through dual credit meet the academic requirements for faculty and instructors teaching in postsecondary or provisions are made to ensure instructors are capable of providing quality college-level instruction through ongoing support and professional development.
Faculty 2 (F2)	The postsecondary institution provides high school instructors with training and orientation in course curriculum, student assessment criteria, course philosophy, and dual credit administrative requirements before certifying the instructors to teach the college/university's courses.
Faculty 3 (F3)	Instructors teaching dual credit courses are part of a continuing collegial interaction, through professional development, such as seminars, site visits, and ongoing communication with the postsecondary institutions' faculty and dual credit administration. This interaction addresses issues such as course content, course delivery, assessment, evaluation, and professional development in the field of study.
Faculty 4 (F4)	High school faculty is evaluated by using the same classroom performance standards and processes used to evaluate college faculty.

Students

Students 1 (S1)	High school students enrolled in courses administered through a dual credit are officially registered or admitted as degree-seeking, non-degree or non-matriculated students of the sponsoring post-secondary institution.
Students 2 (S2)	High school students are provided with a student guide that outlines their responsibilities as well as guidelines for the transfer of credit.
Students 3 (S3)	Students and their parents receive information about dual credit programs. Information is posted on the high school's website regarding enrollment, costs, contact information at the high school and the postsecondary institution, grading, expectations of student conduct, and other pertinent information to help the parents and students understand the nature of a dual credit course.
Students 4 (S4)	Admission requirements have been established for dual credit courses and criteria have been established to define "student ability to benefit" from a dual credit program such as having junior standing or other criteria that are established by the school district, the institution, and State Board Policy.

SECTION: III. POSTSECONDARY AFFAIRS

SUBSECTION: Y. Advanced Opportunities

August 2010

Students 5 (S5)	Prior to enrolling in a dual credit course, provisions are set up for awarding high school credit, college credit or dual credit. During enrollment, the student declares what type of credit they are seeking (high school only, college only or both high school and college credit). Students are awarded academic credit if they successfully complete all of the course requirements.
-----------------	--

Assessment

Assessment 1 (A1)	Dual credit students are held to the same course content standards and standards of achievement as those expected of students in postsecondary courses.
Assessment 2 (A2)	Every course offered through a dual credit program is annually reviewed by postsecondary faculty from that discipline and dual credit teachers/staff to assure that grading standards meet those in on-campus sections.
Assessment 3 (A3)	Dual credit students are assessed using the same methods (e.g. papers, portfolios, quizzes, labs, etc.) as their on-campus counterparts.

Program Administration and Evaluation

Admin & Evaluation 1 (AE1)	The dual credit program practices are assessed and evaluated based on criteria established by the school, institution and State Board to include at least the following: course evaluations by dual credit students, follow-up of the dual credit graduates who are college or university freshmen, and a review of instructional practices at the high school to ensure program quality.
Admin & Evaluation 2 (AE2)	Every course offered through a dual credit program is annually reviewed by faculty from that discipline and dual credit staff to assure that grading standards meet those in postsecondary sections.
Admin & Evaluation 3 (AE3)	Dual credit students are assessed using the same methods (e.g. papers, portfolios, quizzes, labs, etc.) as their on-campus counterparts.
Admin & Evaluation 4 (AE4)	A data collection system has been established based on criteria established by the high school, institution and State Board to track dual credit students to provide data regarding the impact of dual credit programs in relation to college entrance, retention, matriculation from high school and college, impact on college entrance tests, etc. A study is conducted every 5 years on dual credit graduates who are freshmen and sophomores in a college or university.
Admin & Evaluation 5 (AE5)	Costs for high school students have been established and this information is provided to students before they enroll in a dual credit course. Students pay a reduced cost per credit that is reviewed annually by the Council on Academic Affairs and Programs (CAAP) at their April meeting to ensure the rate is comparable among institutions within the state and in comparison to adjacent states.
Admin & Evaluation 6 (AE6)	Agreements have been established between the high school and the postsecondary institution to ensure instructional quality. Teacher qualifications are reviewed, professional development is provided as needed, course content and assessment expectations are reviewed,

August 2010

	faculty assessment is discussed, student's costs are established, compensation for the teacher is identified, etc.
Admin & Evaluation 7 (AE 7)	Postsecondary institutions have carefully evaluated how to provide services to all students regardless of where a student is located.

b. Dual Credit Standards for Students Enrolled in Courses at the College/University Campus

A.	The student is admitted by the postsecondary institution as a non-matriculating student.
B.	The student is charged the part-time credit hour fee or tuition and additional fees as established by the institution.
C.	Instructional costs are borne by the postsecondary institution.
D.	Four (4) semester college credits are typically equivalent to at least one (1) full year of high school credit in that subject.
E.	In compliance with Idaho Code 33-5104, prior to enrolling, the student and the student's parent/guardian must sign and submit a counseling form, provided by the school district that outlines the provisions of the section of this Code. The counseling form includes written permission from the student's parent/guardian, and principal or counselor.
F.	<p>Any high school student may make application to one of the public postsecondary institutions provided all of the following requirements are met:</p> <p>In compliance with Idaho Code 33-202, the student has reached the minimum age of 16 years or has successfully completed at least one-half of the high school graduation requirements as certified by the high school.</p> <p>Submission of the appropriate institutional application material for admission. Written notification of acceptance to the institution will be provided to the student after he or she submits the appropriate application</p> <p>If required by institutional policy, a student must obtain approval of the college or university instructor to enroll in a course.</p> <p>Those high school students meeting the above requirements will be permitted to enroll on a part-time basis or full-time basis as defined in Board policy.</p>
G.	Students seeking admission who do not meet the above requirements may petition the institution's admission committee for consideration. Students enrolled in a public school may seek admission to enroll by submitting a petition to the high school principal's office and to the admissions office of the postsecondary institution.

August 2010

c. Advanced Placement Standards

Advanced Placement (AP) courses are taught by high school teachers following the curricular goals administered by The College Board. These college level courses are academically rigorous and conclude with the optional comprehensive AP exam in May. Students taking AP courses accept the challenge of a rigorous academic curriculum, with the expectation of completing the complex assignments associated with the course and challenging the comprehensive AP exam. The AP Examination is a national assessment, based on the AP curriculum, given in each subject area on a specified day at a specified time, as outlined by the College Board. Students and parents are responsible for researching the AP policy of the postsecondary institution the student may wish to attend. College/university credit is based on the successful completion of the AP exam, and dependent upon institutional AP credit acceptance policy.

Curriculum

Curriculum 1 (C1)	Postsecondary institutions evaluate AP scores and award credit reflecting the pedagogical, theoretical, and philosophical orientation of the sponsoring faculty and/or academic department at the institution.
Curriculum 2 (C2)	High school credit is given for enrollment and successful completion of an AP class.

Faculty

Faculty 1 (F1)	AP teachers shall follow the curricular materials and goals outlined by The College Board.
Faculty 2 (F2)	The AP teacher may attend an AP Institute before teaching the course.

Students/Parents

Students 1 (S1)	A fee schedule has been established for the AP exam. Students and their parents pay the fee unless other arrangements have been made by the high school.
Students 2 (S2)	Information must be available from the high school counselor, AP coordinator or other faculty members regarding admission, course content, costs, high school credit offered and student responsibility.

Assessment

Assessment 1 (A1)	Students are assessed for high school credit according to the requirements determined by the high school.
-------------------	---

Program Administration and Evaluation

Admin & Evaluation 1 (AE1)	To evaluate the success of the programs and to improve services, the school district must annually review the data provided by The College Board.
Admin & Evaluation 2 (AE2)	The school district must carefully evaluate how to provide services to all students, regardless of family income, ethnicity, disability, or location of educational setting.

d. Tech Prep Standards

Professional-Technical Education programs in Idaho are delivered through comprehensive high schools, professional-technical schools, and the technical college system. Tech Prep allows secondary professional-technical students the opportunity to simultaneously earn secondary and postsecondary technical credits. A Tech Prep course must have an approved articulation agreement between the high school and a postsecondary institution. Tech Prep is an advanced learning opportunity that provides a head start on a technical certificate, an associate of applied science degree, or towards a baccalaureate degree.

Curriculum

Curriculum 1 (C1)	A Tech Prep course must have an approved articulation agreement with a postsecondary institution.
Curriculum 2 (C2)	Secondary and postsecondary educators must agree on the technical competencies and agree to the level of proficiency.

Faculty

Faculty 1 (F1)	Secondary and postsecondary educators must hold appropriate certification in the program area for which articulated credit is to be awarded.
----------------	--

Students/Parents

Students 1 (S1)	Tech Prep students are high school students.
Students 2 (S2)	At the completion of the Tech_Prep course the instructor will recommend students eligible for college credit based on their performance. To be eligible for college credit students must receive a grade of B or complete a minimum of 80% of the competencies in the course.

Assessment

Assessment 1 (A1)	The students are assessed for high school and postsecondary credit according to the requirements of the articulation agreement.
-------------------	---

Program Administration and Evaluation

Admin & Evaluation 1 (AE1)	The technical college in each region administers the Advanced Learning Partnership (ALP). The school districts in each region are members of the ALP. The Tech Prep program is administered through the six Advanced_Learning Partnerships and each of the technical colleges serves as the fiscal agent. The ALP Advisory Committee meets at least twice per school year.
Admin & Evaluation 2 (AE2)	Each articulation agreement must be reviewed annually.
